Good Morning Trefon,

Thank you for your offer to speak on the Bristol Bay Watershed Assessment panel at the EPA Region 10 Tribal Leader's Summit. The theme of this year's Summit is "Common Ground: Sharing Successes, Experiences, and Resources." The Summit will bring together federal and tribal governments to explore opportunities to partner and leverage shared resources. There will also be a focus on balancing Traditional Ecological Knowledge and Western Science.

The Bristol Bay Watershed Assessment will be one of the break out sessions for the tribal environmental professionals and tribal leaders. So our audience will be mostly tribal government environmental representatives.

I would like to share with the other Region 10 Tribes our work on the Bristol Bay Watershed Assessment, highlighting our work with the tribal governments through the Intergovernmental Technical Team, the Traditional Ecological Knowledge collection effort, tribal consultation and community involvement.

The session will be on May 3rd from 10:45-12 noon.

I will be organizing a conference call for all of the presenters next Thursday, April 12th @ 1PM AK Time. The teleconference line is **Nonresponsive- Conference Code** I will be checking with all of the panelists that this time will work, so please let me know if this time works.

The panelists so far are the following:

Trefon Angasun, Council Member, South Naknek Tribe
Raymond Wassillie, President, Newhalen Tribal Council
Billy Maines, Council Member, Curyung Tribal Council
Bobby Andrew, Ekwok Village Council
Judy Smith, EPA Community Involvement Coordinator
Tami Fordham, EPA Alaska Resource Extraction Tribal Policy Advisor

Here is the website that discusses the Summit.

<http://www.grandronde.org/tls/>

Please let me know if you are still available to speak at this session for the Summit.

Respectfully,
Tami
